TO CORRESPONDENTS.

In presenting this edition of my Catalogue, I beg leave to return my sincere thanks to my many friends and customers for their generous patronage, and hope by continued uprightness and integrity in all my dealings, and prompt and systematic attention to business, to merit a continuance of the confidence and favors of a generous and appreciative public.

My stock is grown with special reference to its adaptability to the climate and soil of the Southern States. Each succeeding year brings forth new trees and plants that have their friends and advocates. I always test them thoroughly before I recommend them to my customers.

The roses I offer are not small trashy plants, such as are usually sent through the mails, but large and vigorous ones, from one to two years old, taken from the open ground, having bloomed this year. I have a few new varieties, propagated under glass, that are exceptions to the above rule—they are small.

All Orders should be legibly written on a separate list, and not mixed up in the body of the letter.

My facilities for packing and shipping is unsurpassed, and for the propagation of plants, are unequalled in this section.

It is requested that explicit directions for marking and shipping packages accompany each order. Where it is left for me to choose the mode of conveyance, I will exercise my best judgment, but in all cases the articles after being shipped are at the risk of the purchaser.

All trees and planks will be carefully and securely packed, and delivered at the Depot or the Express Office free of charge.

My terms are—Cash with the Order. Remittances may be made by Draft, payable to my order, Post Office Order, or through the Express Company. I will not be responsible for money sent by mail, except in registered letters.

My customers are requested to notify me at once of any error that may be committed in filling their orders, in order that I may make amends.

Transportation through the mails is allowed for parcels of seeds, bulbs, plants, etc., at the rate of one cent for every ounce in weight sent—the weight of the package not to exceed four pounds. Purchasers preferring this cheap and convenient mode of shipment, will please send the amount of order, with additional amount to cover postage.

The Express Companies are particularly recommended for transporting all parcels of trees, plants, etc., where reshipment is required on the route, for distant locations, as being more expeditious, certain and even cheaper than by mail.

Parties desiring stock shipped by Express, C. O. D., must accompany their orders with cash to half the amount of the bill, otherwise no attention will be paid to the same.

Write all communications distinctly, including your own signature, the name of your Post Office (Express Office, if necessary,) County, State or Territory, and also the kind of stock desired. Address all communications to,

W. C. HILL,
Jefferson, Texas.

Ornamental Department.

SELECT ROSES.

I am making the growth of Roses a specialty in my Nursery, and have a very large number of varieties, but offer a Select List only of the Leading Kinds. My stock numbers many thousands of fine, thrifty plants, nearly all of which are grown in open ground, on their own roots, which render them much more desirable for sending to a distance. They are all fine, large plants, have bloomed one year in the Nursery, and the purchaser runs no risk in transplanting.

A deep, rich soil, with dry sub-soil, is necessary to the production of fine roses. The best fertilizer is well decomposed stable manure, or decomposed leaf mold from the woods. Bone dust may also be used to advantage, say a handful to each plant, well mixed with the soil. Pruning and thinning out the crowded bunches, is also very important; this should be done in the Fall.

CHINA ROSES.

My Roses are sold at $2.50 per dozen, my selection; $3.00 per dozen, your selection; 25 cents each.

This class of Roses is of the easiest culture, of all colors, and blooms profusely from early Spring to severe frost.

La Favorite—The finest Double White Geranium for bedding or cemetery planting. This is without doubt whatever the best double white Geranium ever introduced. It is far ahead of all others that a comparison is not necessary. Many extra fine plants have some weakness. This has not, being a strong grower, a profuse bloomer, and reliable in always coming perfect in color and substance. The trusses are very large, flowers beautifully formed, of the purest white and retains its color in the sun, not drawing to a pinkish color as does White Swan; price, 15 to 25 cents each.

Pocahontas—Immense trusses of rose-pink flowers, upper peduncles margined with white, a splendid market sort.

Band of Gold—Orange scarlet, new; price, 15 cents.

BEDDING PLANTS.

This class embraces plants that bloom continually through the Summer, suitable for planting in small or large beds. Their great diversity of colors, the brilliancy of their flowers, make them especially the plants for the flowder garden. They can be set out after the Spring frosts are over, till June, and many of them, if lifted and potted in the fall, will give a continual harvest of flowers through the Winter. Those marked with an (*) asterisk, will not stand the Winter, and require to be kept in the house or pit through the Winter.

GENERAL COLLECTION OF PLANTS.

In the following list I have placed the majority of plants at 20 cents each. Also note the size of my plants.

Impatiens Sultani—This is one of the most distinct and beautiful plants, either as a Winter-flowering plant or for Summer bedding. As a market plant it has few equals, it being never out of flower; price, 10 cts.

Abutilon Eclipse—The new trailing variegated-leaved Abutilon. A great improvement over Mesopotamicum. Leaves broader and more distinctly variegated; price, 10 cents each.

Golden Fleece—A bright, golden yellow Abutilon, of strong, vigorous habit, and very free flowering. There has been a number of yellow Abutilons introduced during the past few years, but they all lacked richness of color. The variety now offered combines large size, fine form and depth of coloring, and has become a leading yellow variety; price 10 cents each.

Begonia Metallica—This elegant variety has large, glossy leaves, shaded with green, crimson and olive, with a peculiar metallic luster all over. Flowers large and dark pink in color. Splendid market variety, invariably giving satisfaction to the customer; price, 10 cents each, or 50 cents per dozen.

Begonia Diadema—An elegant new Begonia, particularly adapted for house culture, with its large, deeply cut foliage and its silver dots and veins, as well as the fine habit of its growth. As a market plant it will prove one of the best we have had for years. Of this valuable Begonia we offer nice two and half inch pots; price, 10 cents each.
Alba Picta—A perfectly distinct new variety. It is shrubby in habit and of compact growth, having long slender, pointed leaves on short stems. The leaves are glossy-green, thickly spotted with silvery-white, the spots graduating in size from the center towards the margin. Foliage small and elegant. The branches are upright and gracefully curving; price, 10 cents each.

Glechoma Hederacea, Variegated—Nepeta Glechoma—A variegated form of the Ground Ivy, which is prettily marked with pure white on a bright green ground, It is hardly and of vigorous growth, like parent variety. A fine basket plant.

Alba Perfecta Grandiflora—This variety closely resembles Begonia Rubra in foliage growth; leaves rather more lance-shape, but with the same glossy appearance, with beautiful pure white blossoms; price, 10 cents.

Richardsonii—Folage finely cut, beautiful. Flowers pure white, very free; price, 10 cents each.

Aloysia Citriodora—Well known as the Lemon-Scented Verbena, esteemed for its fragrant foliage; price, 10 to 20 cents.

Begonia Rex—Ornamental leaved. Grown for the beauty of the foliage. The leaves are large, variegated and margined with a peculiar silvery metallic gloss. Are only used for pot plants, or in wardian cases, ferneries, etc., being too tender to stand our Summer sun; price, 25 cents.

Glaucophylia Scandens—A drooping species with large panicles of orange salmon flowers. One of the most beautiful plants for hanging baskets in cultivation; price, 20 cents.

Hybrida Multiflora—Small ornamental leaves, rosy pink flowers.

Saundersonii—Flowers of bright scarlet crimson.

Weltoneensis—Flowers rich shade of pink.

Robusta—Flowers bright Carmine, large panicles; price, 15 cents.

Begonia Rubra—No plant that I can offer my customers will please them equally well as this. Its dark glossy green leaves, combined with its ever-blooming panicles of large ruby red flowers. The popularity of this variety may be known from the fact where introduced its sale continues until all are supplied.

Davidsoni—White, price, 25 cents.

Leiantha—Dark dazzling red; price, 25 cents.

Calla Ethiopica—Ethiopian Lily. An old and favorite plant, requiring an abundance of water during the season; price, 25 to 50 cents.

Sarafaeng Serpentosa—Splendid basket plant; price, 15 cents each.

Canna, Acorus Arundinacea—Folage resembling that of the Calla in shape, and beautifully spotted white, the flowers are shaped like the Calla, pure white, shaded with violet inside. The bulbs to be kept dry in winter and started like the Dahlia in spring, price, 25 cents.

Platycentra—Cigar Plant, Small tabular flowers, scarlet with white tips; price 10 cents each.

Chinese Chrysanthemum—The Chrysanthemum being entirely hardy and of free growth, can be grown on almost any soil and situation with little care. They are also valuable grown in pots as greenhouse and parlor plants during the Fall and early Winter months. I have a collection at 10 to 15 cents.

Colcas—Of last year. I have twelve fine sorts for $1.50.

Eupatorium—White Winter flowering plants, the flowers of which are largely used in making up wreaths, crosses and baskets of cut flowers; they bloom very freely, doing best when planted out, becoming pot-bound soon; price, 10 to 20 cents.
